

FARM SAFETY

Coloring & Activity Book

UNIVERSITY OF SASKATCHEWAN

Canadian Centre for Rural
and Agricultural Health

CCHSA-CCSSMA.USASK.CA

Hey kids, my name is Todd!

**I am the Agricultural Health
and Safety Network's
"Discovery Day" mascot.**

**We hope you have fun
colouring all the
pictures and doing the
activities in this book.**

**Growing up on a farm, or visiting a farm, is awesome
but it is important to remember that the farm is
also a workplace and can be dangerous.**

**Please be careful and follow all of the rules the
adults have for you!**

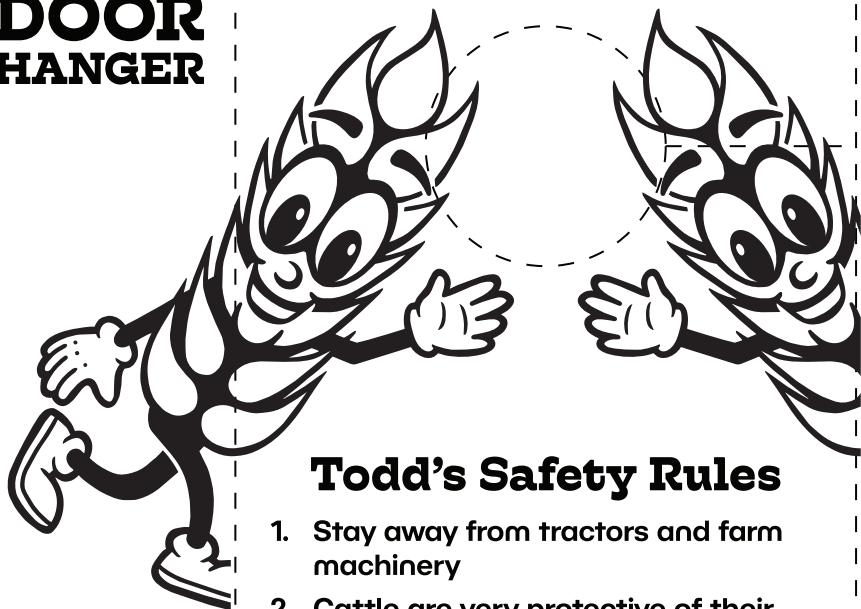

**For more farm safety information go to The Agricultural
Health and Safety Network website: agsafety.usask.ca
or call 306-966-6644**

**Make sure your friends know how
to stay safe when they come to
visit you on the farm!**

MAKE YOUR OWN DOOR HANGER

Colour, cut-out and hang this on your door knob to remind you of the rules

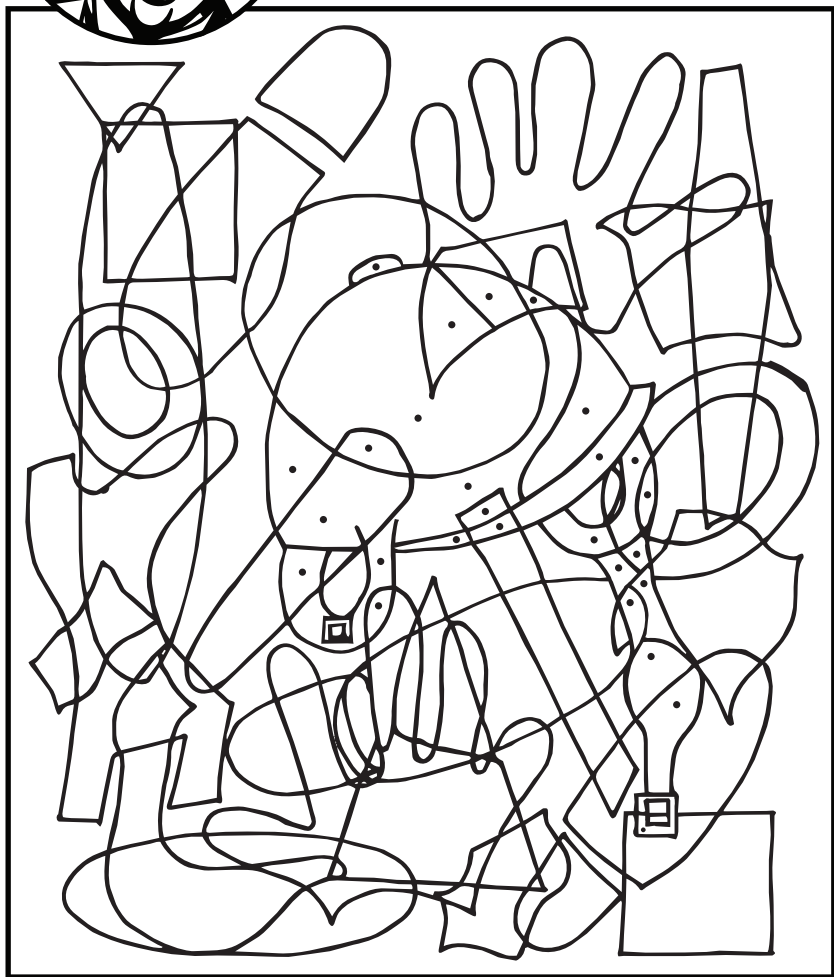

Todd's Safety Rules

1. Stay away from tractors and farm machinery
 2. Cattle are very protective of their young - stay away!
 3. Always wear a helmet and other protective gear when riding a horse, bike, or ATV
 4. Only adults should handle chemicals
 5. Never play around grain
 6. Remember: One Seat = One Rider!
 7. Only play in your safe play area
- Practice good farm safety, always!**

**Always protect the
most important part
of your body!**

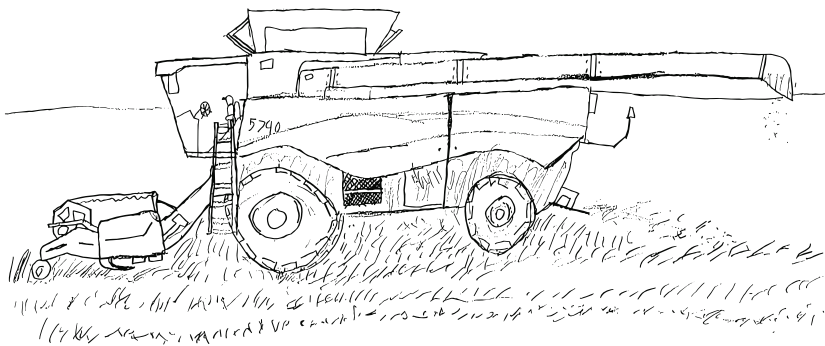

**Colour all of the
spaces that have a dot!**

This great picture was sent to us as an entry in our kids drawing contest. This person knows a lot about farm safety!

Find details to enter our annual farm safety drawing contest @ aghealth.usask.ca

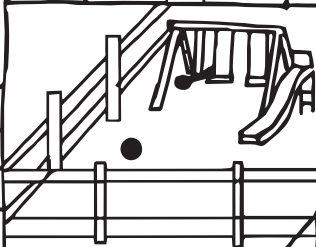

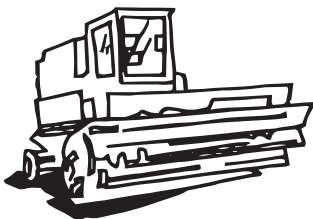

- stay clear of power lines
- stay clear of augers
- stay in sight
- have a parent around
- get permission to be around machinery
- be knowledgeable
- don't climb on machinery
- turn off equipment before fixing
- have good sleeps
- don't drink and operate a machine at the same time

**Help me find my way to
the safe play area!**

Plus you can colour the pictures!

Start Here

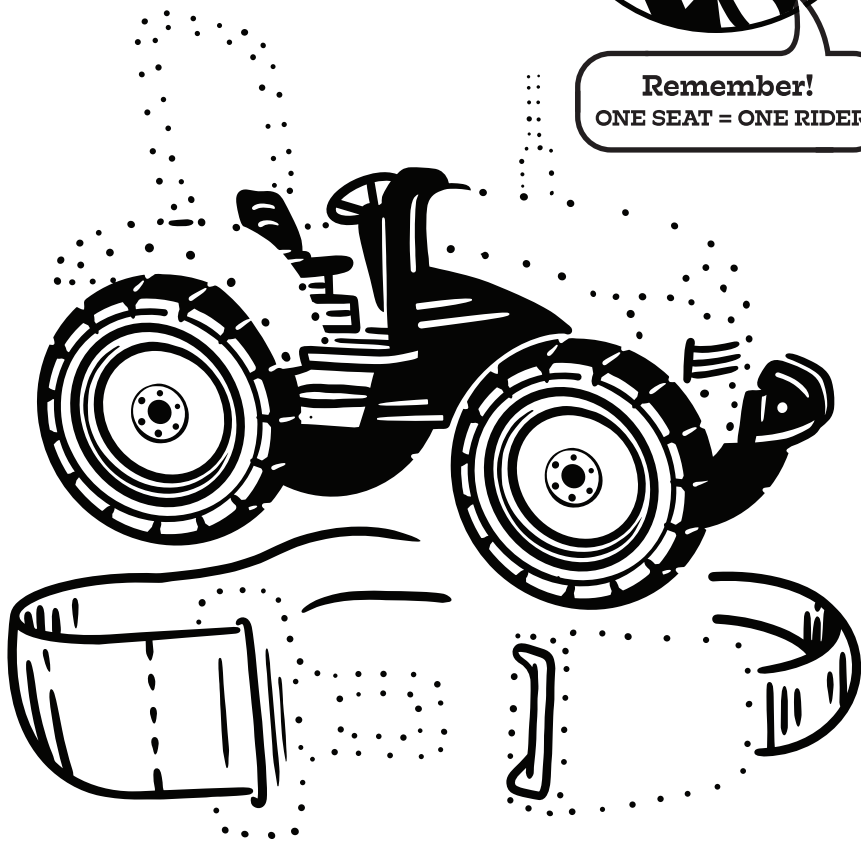

Rollover Protective Structures (ROPS), paired with seatbelts, are the best ways to stay safe as a farm machinery operator

CONNECT THE DOTS

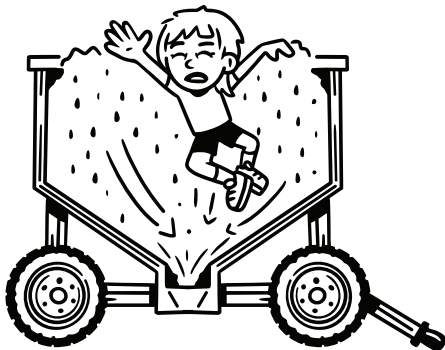

Remember!
ONE SEAT = ONE RIDER

What do you see?

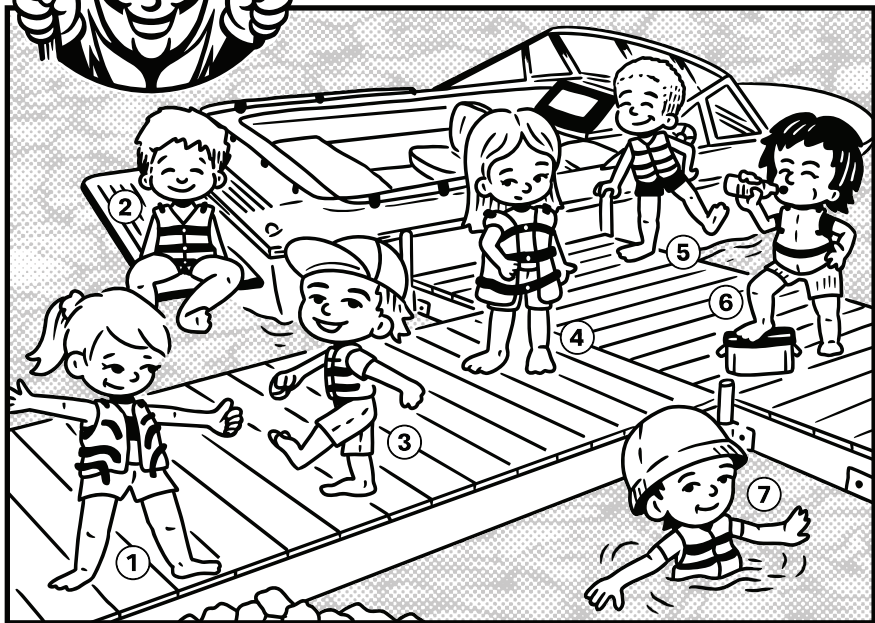

Don't play in grain!

**Flowing grain can
trap and suffocate a
person in seconds!**

ALWAYS BE SAFE AROUND WATER

Three kids need to adjust their PFDs (personal floatation devices)

It is important to have a PFD that fits properly and is not damaged.

Write the number of the child in the circle that matches what needs to be fixed before they can go out on the water!

PFD is unbuckled
and on
backwards!

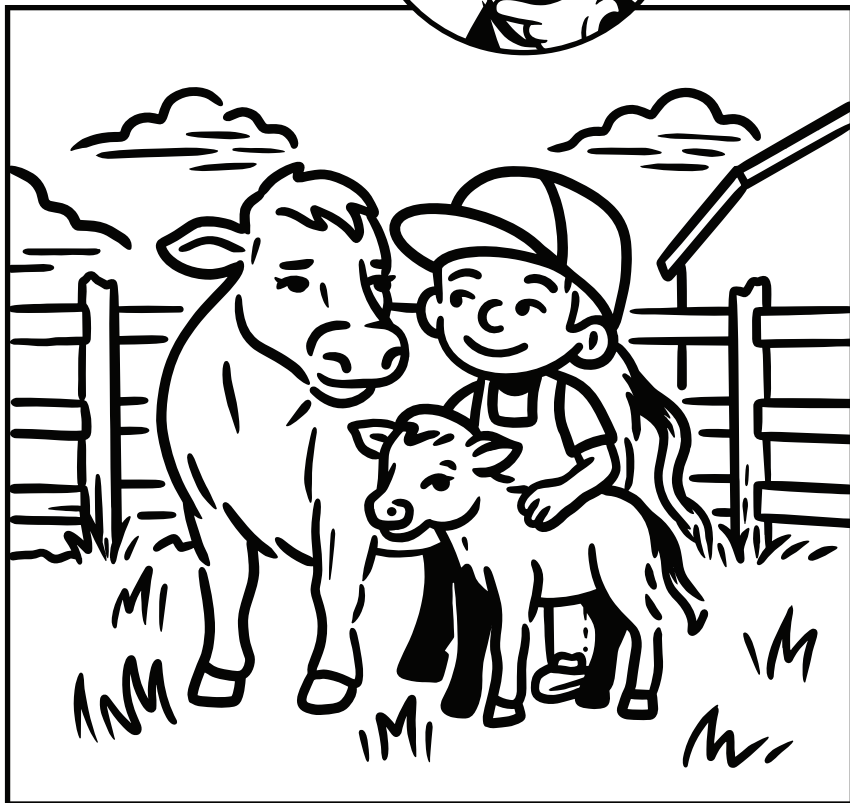

This PFD is worn
correctly, but the
straps need to be
tightened and
buckled up!

Too loose! Back to
the boat for a
smaller size.

**What is not
safe with this
picture?**

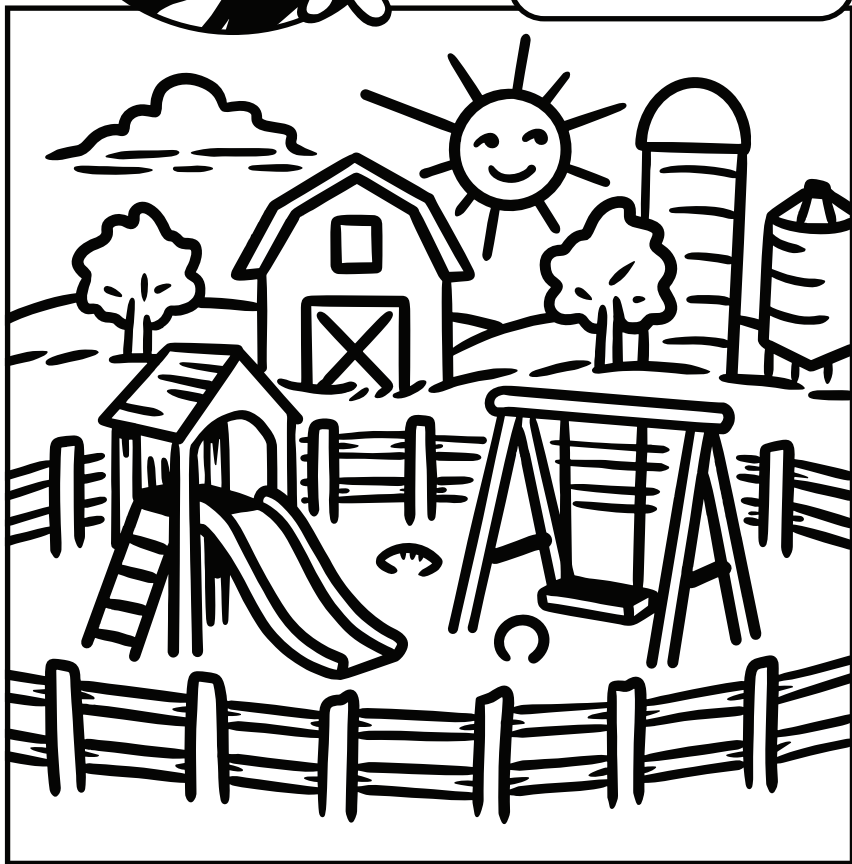

**All animals are
unpredictable**

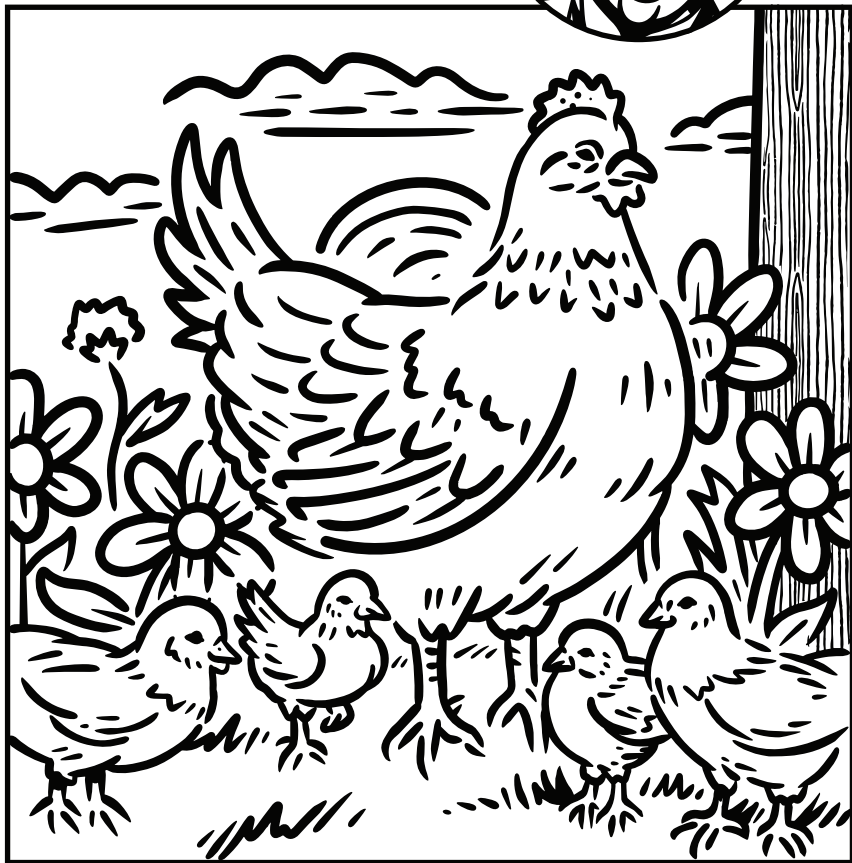

**Cows can be aggressive when protecting their young.
Never stand in between a cow and her calf!**

Hey kids!
Only play
where it is
SAFE!

Cheep cheep!
Cluck cluck!

**Mother hens keep their chicks
safe on the farm!**

**If you see someone driving machinery, wave at them!
If they don't wave back they may not have seen you, stay a safe distance away!**

Don't go near moving machinery!

SAFETY BOOKMARKS

Here are four safety bookmarks.
Colour them, cut along the dotted lines,
and use them in your books!

ONE SEAT
ONE RIDER!

PLAY IN YOUR
SAFE PLAY-AREA!

STAY AWAY FROM
MACHINERY!

PRACTICE GOOD
SUN SAFETY!
