# Grain Safety

By: Gage Gedak

<p><b>Bins</b></p> <p>Don't go in the bin when they are unloading.</p> 	<p>Don't go in the bin while they are unloading.</p> 	<p><b>Semis</b></p> <p>Don't clean or be in the trailer while they are unloading.</p> 	<p>Don't go in the semi without someone knowing.</p> 
<p><b>Anger</b></p> <p>Don't help the grain flow into the anger with your hands or feet.</p> 	<p>Keep the safety shield on.</p> 	<p><b>NEVER</b> Go in the combine harvester while it is harvesting.</p> 	<p><b>Never</b> go in the hopper while they are unloading.</p> 

(grade 5)

## Grain safety:

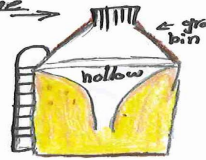

# ALWAYS

## Wear a harness

if you accidentally fall in or going in for something make sure you always have a harness when near by.

grain bin with frame →

grain bin when there is no frame →

a harness is a tool where you put on your self when you are up high and going down. It is to make sure you are safe.

# Sun Safety

- always put on Sun Screen when playing outside for a long time.
- Never look at the Sun for too long because your eyes could get damaged very badly. - always make sure you don't get sun burnt like her.

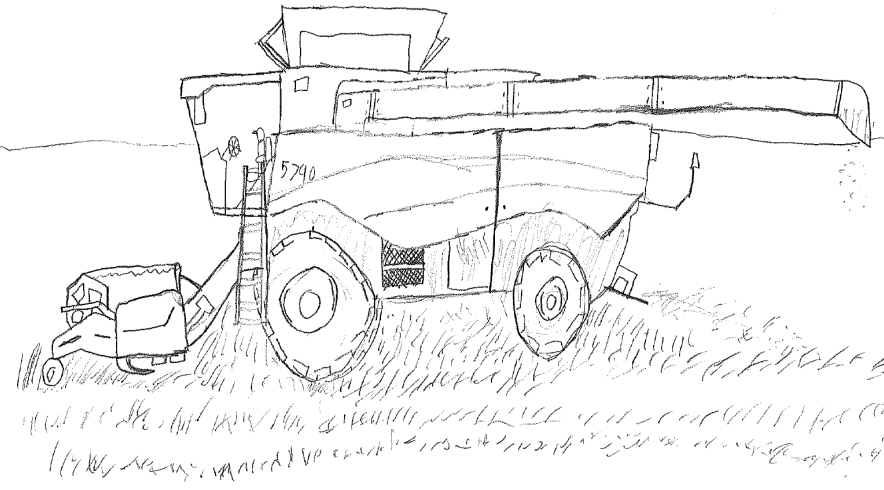

PS: DON'T BE LIKE HER

or Stuff like skin cancer  
skin peeling and burning,  
sensitive skin.

I hope you enjoyed it!!  
!bye bye!

- stay clear of powerlines
- stay clear of augers
- stay in sight
- have a parent around
- get permission to be around machinery
- be knowledgeable
