Sample Analysis Type (Check all that apply):

- |   |   |                               |
|---|---|-------------------------------|
| Intact Protein Analysis   | In-gel Protein Analysis                   | In-Solution Global Proteomics |
| Metabolomics (Targeted/Untargeted)  | Lipidomics (Targeted/Untargeted)          |                               |
| C4 Sample Cleanup   | C18 Sample Cleanup                        |                               |
| Peptide Fractionation   | Phosphopeptides Enrichment and Other PTMs |                               |
| SILAC/iTRAQ/TMT/Label Free Peptide Quantification   |   |                               |
| Targeted Protein Quantification (MRM, stable isotope labelled IS peptides)                      |   |                               |
| High Abundance Protein Depletion  |   |                               |
| Other (e.g. peptide and protein sequencing; accurate mass determination; affinity purification) |   |                               |

Would you like your samples returned after analysis is complete?

Yes                  No

Samples will be kept in storage for 1 month after analysis is complete and you receive your results before being discarded. **For on-campus sample submissions:** if you asked for samples to be returned and you do not pick them up within 1 month, they will be discarded. **External Sample submissions:** samples that require shipping back to the original institution will come at an additional cost to the laboratory that submitted the samples.

Do you have an existing Quote from the CCHSA Mass Spectrometry Laboratory?

Yes                  No

If yes, please provide CCHSA MS quote number
