CCRAH IS CELEBRATING 40 YEARS!

40 Years Strong

Rooted in Community, Driven by Research

Developing and offering programs, resources, and services to rural and agricultural people - built through strong partnerships and backed by our cutting-edge research.

OUR MISSION:

We move rural health research to action through programs and resources to support rural people to live and work healthy and safe.

OUR STRATEGY:

We are a developer, collaborator, source, connector, and catalyst to advance research, knowledge mobilization, and services in the health and safety of rural and agricultural populations.

OUR VISION:

A world where rural people are understood as the basis of rural sustainability.

OUR VALUES:

Partnering. Collaboration. Innovation. Commitment. Sharing. Impact.

In Memorial

CCRAH joins colleagues, friends, and family in mourning the loss of **Dr. Stephan (Steve) Milosavljevic**. Steve's wisdom, leadership, kindness, and passion for research and education left a lasting impact on countless students, colleagues, and communities across the world. We extend our heartfelt condolences to

his family and loved ones. He will be remembered with gratitude, respect, and affection.

CCRAH HIGHLIGHTS

Celebrating 40 years

CCRAH marked a remarkable milestone on June 15, celebrating its 40th anniversary at Saskatoon's iconic Remai Modern museum. The event brought together an inspiring mix of current and former researchers, founding members, students, government representatives, industry and community partners, donors, and friends of the Centre to reflect on four decades of impact and achievement. The celebration highlighted the enduring contributions CCRAH has made to advancing rural, agricultural, and occupational health research while honouring the individuals and partnerships that have helped shape its success. More than 180 attendees enjoyed an evening of connection, reflection, and gratitude, celebrating a shared legacy and looking ahead to the opportunities and innovations that will define the next chapter of our journey.

8th International Symposium on Safety and Health in Agricultural and Rural Populations (SHARP)

SHARP 2026 was a resounding success, uniting researchers, health professionals, students, community partners, agricultural organizations, industry representatives, and decision-makers from diverse regions to advance discussions on rural, northern, agricultural, and occupational health. From June 16-18, more than 200 participants representing 12 countries came together at the Sheraton Cavalier hotel in Saskatoon. The symposium showcased a high-quality scientific program, broadened its reach through strong digital engagement, and created valuable opportunities for collaboration, while receiving highly positive reviews from participants.

Rooted in Community Gathering

The Rooted in Community Gathering was held on June 15, 2026 and provided an opportunity for participants to connect, be heard, and help guide rural, remote, and Indigenous health and safety research priorities in Saskatchewan. 109 participants took part in the day including members of rural and remote communities, RM Reeves and councillors, farmers, ranchers, healthcare providers, Indigenous Elders and community members, First Nation council members, community organizations, researchers, university staff, grad students and other allied organizations. Key takeaways from the Rooted in Community Gathering helped identify successes in rural health and safety, explore gaps and barriers as well as highlight priority needs and solutions.

IG Wealth Management Walk for Alzheimer's

On May 30th, the RaDAR-CCRAH team laced up their sneakers and joined community members at River Landing for the 2026 IG Wealth Management Walk for Alzheimer’s. As Canada’s largest fundraiser

for Alzheimer's disease and other dementias, this incredible event spans over 150 communities nationwide. To date, the Walk has raised more than $50 million since 2015.

Thanks to the incredible generosity of the Society's supporters, the fundraising total in Saskatchewan in 2026 was over $312,000!

Wednesdays were good days for healthy waffles!

Congratulations!

Dr. Allison Cammer

Dr. Shelley Kirychuk

Dr. Angelica Lang

The College of Pharmacy and Nutrition presented the 2026 Research Excellence Award to clinician-researcher **Dr. Allison Cammer** in recognition of research that spans the continuum of care, from prevention and primary care to long-term care and end-of-life settings.

Dr. Shelley Kirychuk, our very own director, was named Administrator of the Year at the Department of Medicine's Annual Awards Banquet!

Dr. Angelica Lang, with support from CCRAH and the Canadian Foundation for Innovation, has secured $385,000 in funding to enhance the Shoulder Health and Ergonomics Research (SHER) Lab. Dr. Lang's team will expand research in injury prevention, rehabilitation, and human movement using cutting-edge motion-capture technology. Dr. Lang was also identified as an Outstanding Reviewer for the CIHR Project Grant reviews!

CCRAH has been busy over the last few months, click this button to see more congratulations and the new members of our team!

CCRAH Highlights

RESEARCH NEWS

Respiratory and Epidemiology Lab

Members of the CCRAH First Nations Mental Health Research team were invited to participate in the Little Red River Reserve Powwow on July 23, 2026. Our research team has a longstanding partnership with Montreal Lake Cree

Nation, of which Little Red is a branch community. We were honoured to gather with Elders, community leaders, health directors, counsellors, and cultural leadership to enjoy the traditional dances including children's and golden age dances. Lunch of neckbones and fry Bannock was new for some of us and, for some, a comforting favorite. Gerald Ballantyne, counsellor and culture leader for Montreal Lake Cree Nation, announced our presence to everyone, with good words about our research and collaboration. Thank you to the Elders, our research partners, and to the community for the warm welcome.

Pictured in photo at the Little Red River Powwow Grounds (left to right): ***Gerald Ballantyne*** *(Little Red River),* ***Barada Mohanty*** *(CCRAH),* ***Elder Ronald Burns*** *(Sturgeon Lake),* ***Marie Neubuhr*** *(Beardy's and Okemasis's),* ***paskwâw-askihk iskwêw Latasha Thomas*** *(Little Red River Reserve),* ***Meera Kachroo*** *(CCRAH),* ***Rohan McMillan*** *(CCRAH family),* ***Nicole Bird*** *(Little Red River Health Centre Director),* ***Elder Dorothy Burns*** *(Sturgeon Lake)*

Rural Dementia Action Research (RaDAR)

With recent new funding from the Saskatchewan Ministry of Health, the RRMC is expanding from one to three clinic days per week, tripling its diagnostic capacity and reducing wait times. The funding also enables the continued expansion of Rural Primary Care Memory Clinics, allowing patients in rural communities to

access specialized memory care locally without travelling to major cities.

RaDAR's Summer 2026 Newsletter has been released!

To join our mailing list, please email Mira Bisso at mira.bisso@usask.ca. Previous editions of the newsletter can be found on our website!

KNOWLEDGE MOBILIZATION

8th International Symposium on Safety and Health in Agricultural and Rural Populations (SHARP)

Several CCRAH team members presented their research or outreach work at the 2026 SHARP symposium!

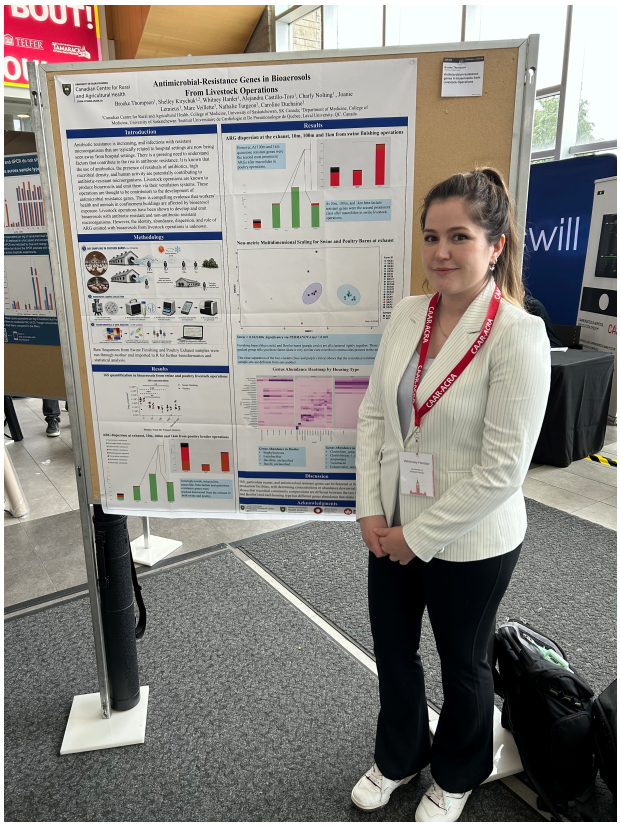

CCRAH faculty, staff and students at the SHARP symposium

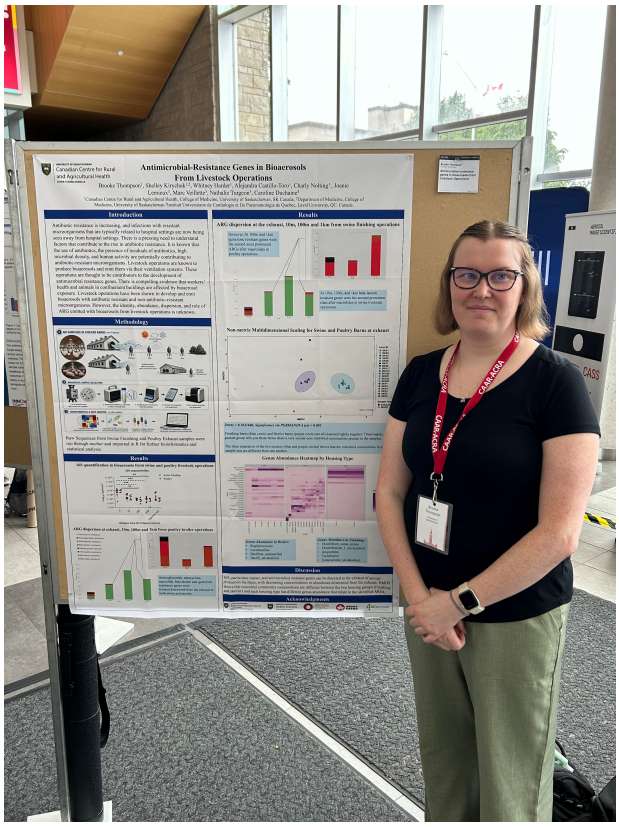

Occupational Hygiene Lab

Canadian Aerosol Conference

Brooke Thompson, Whitney Harder and Dr. Jay Dave attended the 1st Canadian Aerosols Conference held at the University of Ottawa from July 8th to 10th. CAC 2026 consisted of keynote presentations by Dr. Errol Thomson, Dr. Robert Nishida, and Dr. Caroline Duchaine, oral and poster presentations, and tours of laboratories in Ottawa and the Canadian Senate. Brooke and Whitney presented a poster on the “Antimicrobial-resistance genes in bioaerosols from Livestock Operations” and Dr. Jay Dave presented a poster on the “Urban-Rural PM2.5 Dynamics in Saskatchewan: Wildfire Amplifications Effects”.

Whitney Harder

Brooke Thompson

<u>CSABE Conference and Annual General Meeting</u>

Members of the research team participated in the 2026 CSABE- SCGAB Conference, held from July 19–22, 2026, at the W.P. Thompson Building, University of Saskatchewan, Saskatoon, where they shared their ongoing research in agricultural and biological engineering.

Angelo Alluag delivered an oral presentation entitled “Evaluation of Ionization-Based Air Inlet Protection Systems for Poultry Houses,” highlighting research on the use of ionization technologies to reduce airborne contaminants entering poultry facilities. Jake Henson Andres presented a poster entitled “Laboratory-Scale and Simulation Studies on Cold Plasma Technology as a Potential Decontamination Method for Pig Barns.” Dr. Myra Martel also contributed to the conference by serving as one of the session chairs.

The conference provided an excellent opportunity for the team to share their research, engage with fellow researchers and professionals, and exchange knowledge on emerging technologies aimed at improving agricultural environments.

CCRAH members at the 2026 CSABE- SCGAB Conference

Shoulder Health and Ergonomics Research Lab

The SHER Lab attended the International Shoulder Group biannual meeting this June in France, CCRAH's own SHARP conference in Saskatoon, and the World Congress of Biomechanics this July in Vancouver, BC! Dr. Lang, Dr. Kenzie Friesen, Denise Balogh, Sarah Fitzgerald, Lauryn Campell, and Sara Sagen all presented their work for the international audience.

SHER team in France

What's been happening at the RaDAR rural memory clinics?

Let's hear from Kristin on the ground!

- Hello all! I'm excited to join the RaDAR Team as the new Outreach and Research Coordinator.

Kristin Ottenbreit

I've met 6 of our memory clinic teams so far and look forward to meeting everyone else soon.

- There were 18 memory clinics held in 8 communities between April 1st and July 31st, where teams met with a total of 36 patients and families.
- We recently hosted 2 information sessions to share about the RaDAR memory clinic model with primary health care teams and leadership in other areas of the province.

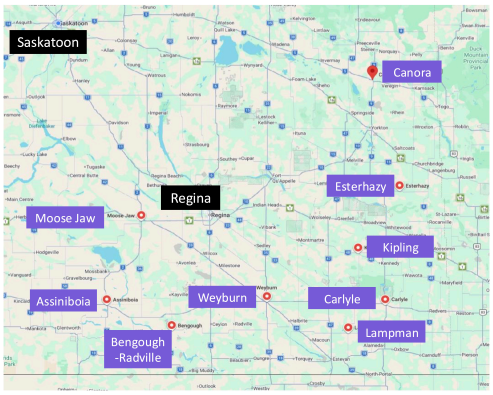

Are You a Healthcare Provider?

If you are a healthcare provider looking for education resources, the RaDAR team is pleased to provide these resources for healthcare providers and professionals. Most of these resources have been produced by RaDAR team members and are intended to provide more detail about the subject area.

Want to catch up on the latest updates about RaDAR's Rural Memory Clinics? Click here to read the 2025 Update!

We are continuing to spread the rural primary care memory clinics. If you or someone you know might be interested and want to learn more, please contact **Julie Kosteniuk** - julie.kosteniuk@usask.ca

One2One Respiratory and Hearing Clinics

ONE 2 ONE
RESPIRATORY & HEARING
CLINICS FOR FARMERS

What are One2One Clinics?

One2One Respiratory and Hearing Clinics assess respiratory or hearing health for Saskatchewan farmers, families, and farm workers. The clinics are held either at our AHSN clinic at USask campus or in your local RM.

Collage of photos from our One2One Hearing and Respiratory Clinics for farmers and rural workers

Recent One2One Clinics:

- **LeRoy** - RM of LeRoy #339, Div. 5
- **Kyle** - RM of Lacadena #228, Div. 3
- **Turtleford** - RM of Mervin #499, Div. 6
- **Luseland** - RM of Heart's Hill #352, Div. 6

Interested in hosting a hearing or respiratory clinic for your local RM farm families and workers?

UPCOMING EVENTS

19th RaDAR Rural Dementia Care Summit

Save the date! Summit 2026 will be hosted as a one-day, online event on **Thursday, November 19th, 2026**. Our keynote speaker this year will be **Dr. Sarah Monks**: “What Holds Life Together: Rethinking Rural Dementia Care Through Everyday Practice”.

The RaDAR team is the recipient of funding to support the Summit and the team’s activities, generously provided by the Bilokreli family. The funding enables us to host the Summit without registration costs for participants.

As planning progresses, more details will be shared on our website. If you have questions about Summit 2026, please contact julie.kosteniuk@usask.ca

CCRAH Research Seminars are available to attend online via Zoom or in person in room 1254 in the E-Wing of Health Sciences building. For more information about upcoming seminars or to contact us for the zoom link, visit our website!
